addressing energy security issues, and facilitating economic growth. The US is currently the largest producer of nuclear energy in the world, but other countries are aggressive pursuing nuclear power programs to address their growing energy needs.

Opening Remarks

The Honorable Lee Terry (NE-2nd) - Chairman, Subcommittee on Commerce, Manufacturing and Trade and Member of the Energy & Power Subcommittee of the House Energy and Commerce Committee

Speakers

Dr. Peter Lyons - Assistant Secretary for Nuclear Energy, US Department of Energy (DOE)

Dr. Gail Marcus - former Deputy Director-General of the OECD Nuclear Energy Agency (NEA), former Principal Deputy Director of the DOE Office of Nuclear Energy, former President of the American Nuclear Society (ANS)

*****RSVP Information*****

To RSVP, please contact Alan Ahn, Director of Programs and Communications for GABI, at alanahn@thegabi.com

INTRODUCTORY REMARKS

Representative Lee Terry has served as a member of the US House of Representatives for Nebraska's 2nd congressional district since 1999. He currently serves as a senior member on the influential Energy and Commerce Committee, which is the oldest standing legislative committee in the House. As a member of the Subcommittee of Energy and Power, he is an advocate for an "all of the above" energy policy.

SPEAKERS

Dr. Peter B. Lyons was confirmed by the Senate as the Assistant Secretary for Nuclear Energy on April 14, 2011. Dr. Lyons was appointed to his previous role as Principal Deputy Assistant Secretary of the Office of Nuclear Energy in September, 2009. As Assistant Secretary, Dr. Lyons is responsible for all programs and activities of the Office of Nuclear Energy. Previously, Dr. Lyons served as Commissioner of the Nuclear Regulatory Commission (NRC) from 2005 to 2009. At the NRC, Dr. Lyons focused on the safety of operating reactors and on the importance of learning from operating experience, even as new reactor licensing and possible construction emerged.

Dr. Gail Marcus is an independent consultant on nuclear power technology and policy. She previously worked as Deputy Director-General of the OECD Nuclear Energy Agency (NEA) in Paris; Principal Deputy Director of the DOE Office of Nuclear Energy, Science and Technology; in various positions at the Nuclear Regulatory Commission (NRC); and as Assistant Chief of the Science Policy Research Division at the Congressional Research Service (1980-1985). Dr. Marcus has served as President of the American Nuclear Society (ANS) and as Chair of the Engineering Section of AAAS. She is the first woman to earn a doctorate in nuclear engineering in the United States.

About KEIA

KEIA is a not-for-profit educational organization that has a partnership with the Korea Institute for International Economic Policy (KIEP), a public corporation established by the Government of the Republic of Korea. The mission of KEIA is to strengthen all aspects of the US-Korea relationship, particularly in the area of trade and economics. Through its publications, outreach programs, and website, KEIA offers access to current information and analysis about issues that affect the bilateral relationship and Korea. Visit <http://www.keia.org/> for more information.

About GABI

GABI was established in the fall of 2011 in Washington, DC to promote the dialogue and deepen the understanding between the United States and Korea on nuclear energy policy issues. In an effort to educate and expand discussion of the major issues and challenges in Korean nuclear energy, GABI organizes seminars, workshops, and conferences to bring together nuclear experts, government officials, industry leaders, and subject matter specialists for off-the-record discussions. GABI is recognized in Washington, DC as an organization specializing in US-Korea nuclear energy issues. Visit <http://www.thegabi.com/> for more information. Also, please listen to GABI's audio podcast titled "Nuclear Energy in Korea."

Thank you for your attention and response, and we hope you can join us for the briefing on February 26th.

Sincerely,

Florence Lowe-Lee

Trilateral Nuclear Energy Dialogue: Korea, Japan, United States

Meeting 3: Opportunities for Trilateral Cooperation

Daejeon & Gyeongju, Republic of Korea

November 5-7, 2013

Purpose

Convene a high-level annual/biannual private workshop among fifteen preeminent Korean, Japanese, and American nuclear energy policy experts with the intention of fostering relationships, confidence building, and seeking areas for trilateral cooperation on regional nuclear energy issues.

Meeting 3 will be the first gathering in this series to be held outside of the United States. The meeting will focus on the updates from the previous gathering within the participating countries. The new topic that will be broached is the issue of policy media for civil nuclear cooperation, including 123 agreements. Meeting discussions will be supplemented with technical visits to Korea Atomic Energy Research Institute (KAERI), Doosan Heavy Industry, Korea's Nuclear Power Plant, and Waste Disposal Facility.

INVITATION

GABI would like to invite you to the next event of its speaker/discussion series, the
US-Korea Nuclear Roundtable

Upcoming Discussion

International Waste Management Efforts Current Status and Future Prospects

Guest Speaker: Timothy A. Frazier, Senior Advisor, Dickstein Shapiro LLP

When: Thursday, December 12th, 2013; Noon to 1:30 pm

Where: Global America Business Institute Conference Room - 1001 Connecticut
Avenue, NW, Suite 435, Washington, DC 20036

Speaker Bio

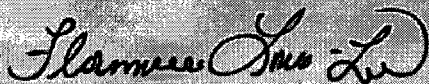

Timothy A. Frazier is a senior advisor working with Dickstein Shapiro's Public Policy and Law and Energy Practices. During the course of more than 20 years with the U.S. Department of Energy, he managed nuclear programs and nuclear operations. Frazier advises on Japanese and U.S. interests on nuclear policy and technical issues stemming from the March 2011 earthquake and tsunami in Japan, and works with clients on implementing the key legislative and commercial recommendations of the Blue Ribbon Commission on America's Nuclear Future. He has an active Department of Energy "Q" clearance and is a 2007 recipient of the NASA Exceptional Public Service

Medal. Prior to joining Dickstein Shapiro, Frazier served as designated federal officer of the Blue Ribbon Commission on America's Nuclear Future. Appointed to the role by Energy Secretary Steven Chu in March 2010, Frazier was responsible for all aspects of the Commission, including providing technical support and information to Commission members. He previously served at the Department of Energy as acting director of the Office of Policy, Integration, and Communication in the Office of Nuclear Energy where he led policy support, including policy review, recommendations and implementation; identification of crosscutting issues and integration across the Office of Nuclear Energy; planning and analysis for strategic planning; as well as internal and external relations and congressional affairs. His tenure at the Department of Energy's headquarters in Washington, DC also includes work as senior technical advisor to former Assistant Secretary for Nuclear Energy Dennis R. Spurgeon; acting associate deputy assistant secretary for the Office of Fuel Cycle Management, under which the Global Nuclear Energy Partnership (GNEP) was managed; and program director of radioisotope power systems in the Office of Nuclear Energy. Frazier worked on-site for the Department of Energy's Mound Site in Dayton, Ohio as radioisotope power system program manager and nuclear weapons engineer.

Developing and Financing NPPs: Thoughts on Reputational Risk

Guest Speaker: Paul Murphy, Senior Counsel at Milbank, Tweed, Hadley & McCloy

When: Friday, January 31st, 2014; Noon to 1:30 pm

Where: Global America Business Institute Conference Room - 1001 Connecticut
Avenue, NW, Suite 435, Washington, DC 20036

Speaker Bio

Paul Murphy is special counsel in the Washington, DC office of Milbank, Tweed, Hadley & McCloy and a member of the firm's Project Finance Group. His practice focuses on multiple aspects of the nuclear industry--from legal and policy matters, including international regulatory and treaty frameworks and issues regarding nuclear liability, to strategies for creating viable nuclear power programs and the identification and mitigation of associated risks--representing developers/owners, investors, and contractors on nuclear projects internationally. Mr. Murphy is recognized as an expert in the development and financing of nuclear power programs

by the International Atomic Energy Agency (IAEA), the OECD's Nuclear Energy Agency (NEA) and the US government. Mr. Murphy currently serves on the IAEA's Technical Cooperation Program team, which assists member states in developing civilian nuclear power programs. Mr. Murphy has served as a designated expert, chairman, and author at several special meetings and for multiple working groups of the IAEA, primarily involving the development, financing, and structuring of nuclear power projects. He continues to work with the IAEA in a number of key areas, including a current revision of the IAEA's *Handbook on Nuclear Law*. Mr. Murphy currently serves as a two-time appointee to the US Secretary of Commerce's Civilian Nuclear Trade Advisory Committee, and he chaired its Finance subcommittee for the last two years. In addition, Mr. Murphy recently served as the US Government's sole representative on an NEA working group on "*Financing of Nuclear Power Plants*," acting as chairman for the working group. Mr. Murphy also chaired the IAEA working group that issued, "*Issues to Improve the Prospects of Financing Nuclear Power Projects*."

The Future of US-ROK Civil Nuclear Cooperation: Possible Directions and Mutual Interests

Guest Speaker: Seung Koo Lee, President of the Korea Academy of Nuclear Safety and
Former Vice Minister of the ROK Ministry of Science and Technology

When: Thursday, April 10th, 2014; Noon to 1:30 pm

Where: Global America Business Institute Conference Room - 1001 Connecticut
Avenue, NW, Suite 435, Washington, DC 20036

Speaker Bio

Seung Koo Lee is President of the Korea Academy of Nuclear Safety and President of the Alumni Association of the Korean Ministry of Science and Technology. From 2003-2008, he served as President of the Korea Scientists and Engineers Mutual-Aid Association. From 1972-2003, he served as an official in the Ministry of Science and Technology in various positions--Director General of the Atomic Energy Bureau and

Science & Technology Policy Bureau, President of the National Central Science Museum, and Vice Minister. He is a graduate of Hanyang University, where he majored in Metallurgical Engineering.

Accelerator Driven Subcritical Reactors for Improved Safety, Waste Management, and Profitable Plutonium Disposition

Guest Speakers: Rolland Johnson, President of Muons, Inc., and Charles Bowman, President of ADNA Corporation

When: Tuesday, April 29th, 2014; Noon to 1:30 pm

Where: Global America Business Institute Conference Room - 1001 Connecticut Avenue, NW, Suite 435, Washington, DC 20036

Speaker Bios

Dr. Rolland Johnson has been actively involved in particle accelerator research and development for over 40 years. He has directed several successful accelerator R&D, construction, and commissioning projects. He has also directed many software projects at Fermilab, CAMD, and CEBAF, in addition to providing technical oversight to several SBIR grants while on detail to US DOE. Dr. Johnson has extensive experience in the area of beam cooling, having participated in the commissioning and improvement programs of the CERN Antiproton Accumulator as well as the design of the Fermilab TeV I project. Besides work on methods to increase the proton flux for better muon production as seen in the Proton Driver Design Report and The Linac Afterburner Proposal, he has worked on improving ionization cooling. As the founder, president, and chief scientist at Muons, Inc., he has been the PI on several SBIR-STTR grants.

Dr. Charles Bowman is President of the Accelerator-Driven Neutron Applications (ADNA) Corporation. He is a fellow of the American Physical Society and the Los Alamos National Laboratory (LANL). He led neutron source developments and their science application at Lawrence Livermore National Laboratory, the National Institute of Standards and Technology, and LANL. Dr. Bowman was the first construction project manager for the Manuel Lujan Neutron Scattering Center at Los Alamos, and assembled the Weapons Neutron Research group at the Los Alamos Neutron Science Center (LANSCE). He devised means to provide the proton beam concurrently to both facilities, enabling LANSCE to become the world's most versatile

facility for neutron science. His last project at LANL was the origination and leadership of Accelerator Transmutation of (nuclear) Waste. He formed Accelerator-Driven Neutron Applications (ADNA) Corporation in 1997 to devote full attention to optimizing the benefits to nuclear energy generation of supplementing fission neutrons with neutrons from accelerators.

Wednesday, March 19**Tour of Sedae Eneritech, Gunsan, Korea**

Sedae Eneritech Corporation's (SEC, <http://eng.sedae.co.kr>) is a Korean fabricator with experience in the fabrication of used fuel casks for the U.S. and Korea. The presentation and shop tour will feature the current fabrication of canisters dedicated to Korean used fuel.

The tour will include presentations from Kobe Steel Ltd (Japan), who teams with SEC for the fabrication of used fuel casks and canisters. Kobe Steel Ltd is the most experienced fabricator in Asia with more than 270 packages of spent and MOX fuel delivered.

Agenda

07:30 - 11:00	Limousine bus trip from Seoul Novotel Hotel to Gunsan (Catered morning snack served aboard.)
11:00 - 11:30	SEC Welcome and company presentation
11:30 - 12:30	Kobe Steel presentations about casks and canisters for spent and MOX fuel
12:30 - 13:45	Lunch
13:45 - 15:00	Shop Tour showcasing manufacturing of heavy casks for Korean spent fuel
15:00 - 18:00	Return limousine bus from Gunsan to Seoul Novotel Hotel
